

THE ORIGINAL

CYCLONE

6.5" PLASTIC HANDLE W/ CONTOUR GROOVED
END FOR BETTER GRIP

FIBERS ARE SOFT ON PRINTS & HOLD JUST ENOUGH POWDER

PACKAGED IN A PLASTIC
TUBE TO PROTECT FIBERS
FROM SCENE TO SCENE

Our best fiber brush available, the Cyclone has been precision milled to spin, twirl and evenly deliver powder over the desired surface without damaging the print. 6.5" long brush consists of thousands of specially formulated fibers to ensure softness and maximum coverage without damaging prints. The brush will hold the correct amount of powder and distribute it evenly, resulting in fewer trips to the powder jar. The Cyclone is made to last, and will grow better with age. Packaged in a reusable plastic tube which opens on both ends for easy storage and removal. Use one brush for black powder, one for dual use powder & one for white powder.

PART NO: A-2488
